Summary

I'm currently in my first year of the Bachelor of Engineering in Mechatronics (Co-op) at the University of Guelph. My coursework spans chemistry, physics, introductory programming, engineering design and calculus, giving me a strong foundation in both the hardware and software sides of engineering. Outside of the classroom, I've been Vice President of my high school robotics team, where I helped design, build and program multiple competitive robots. I also work as a hockey referee and timekeeper, roles that strengthened my decision-making, communication, and composure under pressure.

I'm now looking for engineering internships where I can contribute to real projects, learn from experience engineers, and keep building things that solve real problems.

Skills

- Leadership skills
- Critical thinking
- Problem-solving
- Collaboration
- Proactive approach
- Willingness to learn
- Accountability
- Reliability

Experience

HOCKEY REFEREE

Guelph Hockey Associaton, OMHA – Guelph Area | 11/2025 - Present

CCT Tournaments & ASHL - Etobicoke, Mississauga & Oakville, Ontario | 07 2024 - Present

- Enforce safety regulations, ensuring compliance with protective gear among all players.
- Assess gameplay to maintain adherence to league rules and standards.
- Monitor player conduct on ice to promote sportsmanship during games.
- Collaborate with referees on critical calls involving multiple players from both teams.

HOCKEY REFEREE & TIMEKEEPER

Streetsville Hockey League – Mississauga, Ontario | 10/2021 - Present

Mississauga Hockey League - Mississauga, Ontario | 09/2023 – 04/2025

- Call penalties, such as offsides, icing, tripping, and slashing.
- Issue warnings for minor violations of the rules.
- Maintain composure in high-pressure situations while making decisions quickly.
- Monitor ice hockey games to ensure that rules and regulations are followed.

HOCKEY TIMEKEEPER | 09/2024 - Present

Jr C Streetsville Derbys - Mississauga, Ontario

- Set up and maintained official game clock, ensuring precise timekeeping for all periods.
- Compiled post-game reports detailing final scores, player statistics, penalties, and attendance figures.

- Tracked goals, assists, penalties, shots on goal, saves, and other assigned statistics.
- Completed paperwork associated with hockey games including lineups and scoresheets accurately.
- Operated audio equipment for music systems and PA systems during pre-game ceremonies.
- Prepared for games by setting up and testing announcing and scorekeeping equipment.

OWNER | 07/2019 - 09/2024

Kaelan The Grass Mower - Mississauga, Ontario

- Promoted lawn services in my residential area for summer lawn care.
- Executed cutting and trimming of lawns to maintain aesthetic appeal.

Education and Training

University of Guelph | Bachelor of Engineering, Mechatronics (Co-op)

Expected Graduation: 2030

First Semester Courses

General Chemistry 1
Engineering and Design 1
Introductory Programming for Engineers
Calculus 1
Physics and Applications

Second Semester Courses

Engineering Mechanics 1
Material Science
Engineering Analysis
Calculus 2
Introductory Electricity and Magnetism

St. Marcellinus C.S.S - Mississauga, ON | High School Diploma

2025 Graduate

Honor Roll Student Grades 9-12

Accomplishments

- Captain, Varsity Football Team
- Vice President of the St. Marcellinus Robotics Team

Engineering Projects

Hands on experience building robots, assistive devices and software from a teddy bear wheelchair to a C-based AI tic-tac-toe game.
